

Resources for Graduate Students

Masters, PhD and Postdoc students are welcome to attend events for undergraduates, including Life Design Lab events, employer info sessions and career fairs. Connect with the Life Design Lab via Handshake to find office hours and details on general events or graduate-specific events.

Handshake: For All Students

Create and keep an updated profile in [Handshake](#) to get access to events, resources, jobs, employers and appointments. Take the time to fill out your profile and select your post-grad career plans and career interests, which will allow employers who are hiring students with advanced degrees to find you.

Masters Students

Workshops

Grad-specific workshops help you tailor your resume, interview skills, and job search to your talents. Search Handshake for events.

Appointments

Appointments are available virtually with Mark Savage or Sonjala Williams. All appointments can be found in Handshake, under Career Center. You also can meet with staff throughout the week for unscheduled appointments, or with a graduate-specific peer advisor affiliated with the Life Design Lab. Drop-in office hours are available [here](#).

Engineering for Professionals Students

Workshops

Grad-specific workshops help you tailor your resume, interview skills, and job search to your talents. Search Handshake for events.

Appointments

Appointments are available virtually with Mark Savage or Sonjala Williams. All appointments can be found in Handshake, under Career Center. Drop-in office hours are available [here](#).

PhD and Postdoc Students

➤ Office Hours

All PhD students can attend office hours throughout the week. Drop-in office hours are available [here](#).

➤ Online Resources

[Interfolio Dossier Service](#): Managing, storing and distributing your application materials can be a stressful task. Interfolio users can store any materials you may need for your applications, including confidential letters of recommendation.

[Versatile PhD](#): The Versatile PhD is an online service that helps PhD students explore the wide range of career options available. The site focuses primarily on disciplines in the humanities and social sciences, but has expanded its offerings to include the STEM disciplines. You must register on the site to become a JHU user.

Doctoral Careers and Professional Development Fund

This fund supports student-initiated events and activities focused on non-academic career preparation, networking, and professional development for doctoral students on the Homewood (KSAS, WSE, SOE) and East Baltimore (SOM, BSPH, SON) campuses. Events supported through this fund must be aligned with the broader goals of the Life Design Lab and be co-branded as a Life Design Lab event open to interested doctoral students and post-doctoral fellows across the university.

For more information, as well as instructions on submitting funding requests, please read the PDF application.
