

HOST A JAY AT WORK

With the Johns Hopkins Life Design Lab

Background

Job shadowing is temporary, unpaid exposure to the workplace in an occupational area of interest to a student.

Through the shadowing program, Johns Hopkins alumni and parents have the unique opportunity to invite students to explore career options and refine their interests.

A typical shadowing experience may involve sitting in on an executive meeting, observing a client presentation, or attending a strategic management meeting.

Timeline

August - October

Shadow opportunities are posted on Handshake, our job platform.

October / November

Attend our "Meet Our Hosts" information session

December

Resumes are sent to alums & parents for review, selections are made, and students are notified.

January 2 - 13

Students will shadow for 2-3 days.

Structuring the Shadow Experience

Since the purpose of the program is to help students understand the core components of a job and the competencies needed to succeed, it is important for the student to observe mission-critical aspects of the role:

- Meetings • Stock/client pitches
 - Developing reports • Crisis management
- Research • Customer service
- Production • Strategy • Team management
 - Design sessions
 - Problem solving

Benefit to Employer

- Help build your brand on our campus
- Share the shadowing experience on your social media platforms
- Students bring a unique, independent perspective
- A chance to "give back"

Note: If necessary, students can sign a non-disclosure agreement upon visiting the work environment
